

# KHARIS GOLDMAN

## PROFILE

I am a full time college student at Eastern Washington University studying Visual Communication Design in my Senior Year. I have great leadership skills. I am friendly and outgoing, kind, responsible, and punctual, I would love to intern at Propaganda Creative and learn more about design and working in the professional world at a design firm. I am interested in digital design, print design, branding, and website design and have experience in these fields as well as proficient in Creative Cloud programs and photography. I hope to work for a design firm upon graduation in the spring and think having real world experience will be beneficial to me. Even though i do not have experience in professional design, other than some work for family and friends, i have an extensive background working. Thank you for your time and consideration.
